NEW COUNTY COMMITTEE
County committee members are an important component of the operations of FSA and provide a link between the agricultural community and USDA. Farmers and ranchers elected to county committees help deliver FSA programs at the local level, applying their knowledge and judgment to make decisions on commodity price support programs; conservation programs; incentive indemnity and disaster programs for some commodities; emergency programs and eligibility. FSA committees operate within official regulations designed to carry out federal laws.

Ballots were counted on January 23, 2014. Daniel Knutzen was elected to represent farmers in the townships of Deer Creek, Maine, Cicero, Maple Creek, Liberty, Bovina and Black Creek.

FSA County Committee Seeks Advisor Nominations
The Outagamie Farm Service Agency (FSA) office is currently searching for minority and female producers interested in serving as an advisor to the FSA County Committee. It is recommended that interested groups or individuals send advisor nominations to the FSA Office by February 28, 2014.

The purpose of the Advisor is to insure that the problems and viewpoints of underrepresented groups are understood and considered in local FSA actions and to increase awareness and participation in FSA activities including elections.

MICROLOAN PROGRAM
The Farm Service Agency (FSA) developed the Microloan (ML) program to better serve the unique financial operating needs of beginning, niche and small family farm operations.

FSA offers applicants a Microloan designed to help farmers with credit needs of $35,000 or less. The loan features a streamlined application process built to fit the needs of new and smaller producers. This loan program will also be useful to specialty crop producers and operators of Community Supported Agriculture (CSA).

Eligible applicants can apply for a maximum amount of $35,000 to pay for initial start-up expenses such as hoop houses to extend the growing season, essential tools, irrigation and annual expenses such as seed, fertilizer, utilities, land rents, marketing, and distribution expenses. As financing needs increase, applicants can apply for a regular operating loan up to the maximum amount of $300,000 or obtain financing from a commercial lender under FSA’s Guaranteed Loan Program.

Individuals who are interested in applying for a microloan or would like to discuss other farm loan programs available should contact our office to set up an appointment with a loan official.

LOANS FOR THE SOCIALLY DISADVANTAGED
FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.
